Subject - Approval for an Add on Certificate Course Proposal on "Chemistry in Everyday Life"

Respected Sir,

I am writing to seek your approval for an add-on certificate course titled "Chemistry in Everyday Life" that we propose to introduce at our college. Chemistry is the foundation of our material world, and its principles govern countless aspects of our daily experiences. This course aims to bridge the gap between theoretical knowledge and practical application, fostering a deeper appreciation for Chemistry beyond textbooks. The proposed course details is as follows.

**Course Title:** Chemistry in Everyday Life

**Duration:** 30 hours (Between 19/11/2018 to 01/12/2018)

**Objective:** To enhance students' understanding of the practical applications of Chemistry in their daily lives.

**Target Audience:** Undergraduate students from various disciplines.

**Course Content:** (1) Introduction to fundamental Chemistry concepts (2) Applications of Chemistry in industries, food science, and drug development (3) Hands-on experiments and demonstrations.

**Lectures by:** (1) Dr Washim Raja (Assistant Professor, Department of Chemistry) (2) Subrata Mandal (PTT, Department of Chemistry) (3) Buddhadeb Ghosh (PTT, Department of Physics) (3) Amit Chandra Das (Assistant Professor, Department of Physics) (4) Dr Sewli Chatterjee (Assistant Professor, Department of Mathematics) (5) Chandan Mandal (GT, Department of Mathematics)

**Assessment:** Participants will receive a certificate upon successful completion of the course.

We kindly request your approval to initiate this course in the upcoming academic session. We believe it will enrich our students' learning experience and contribute to their holistic development.

Date: 06/11/2018

Place: Mollarpur

## Meeting Resolution to Conduct an Add-On Course on "Chemistry in Everyday Life"

It is resolved by the Principal of THLH Mahavidyalay, on 08.11.2018, that an add-on course on "Chemistry in Everyday Life" will be conducted to investigate everyday Chemistry, from household objects to weather patterns within 19/11/2018 to 01/12/2018.

1. The course shall cover the following topics:

- o The basics of Chemistry by understanding how everyday things work.
- o Topics covered include (1) Introduction to fundamental Chemistry concepts (2) Applications of Chemistry in industries, food science and drug development (3) Hands-on experiments and demonstrations.

2. The course shall be open to all students and external participants who have a foundational understanding of Chemistry.

3. The course shall be conducted within the duration of 30 hours.

4. The institution shall allocate the necessary resources, including:

- o Chemistry laboratory
- o Qualified instructors
- o Learning materials and access to online resources

5. A nominal fee may be charged to cover the costs of materials and certification.

6. Upon successful completion, participants shall receive a certificate of completion.

7. The effectiveness of the course shall be evaluated through participant feedback and performance assessments, and improvements shall be made accordingly for future iterations.

This resolution is hereby adopted by Dr. Amit Kumar Chakrabarty, PRINCIPAL OF THLHM and shall be effective immediately upon its passage.

### Course Details

- **Course Title:** Add-on Certificate Course on Chemistry in Everyday Life.
- **Duration:** 30 hours
- **Course Date:** 19/11/2018 to 01/12/2018

- **Objectives:**

Introduce chemical concepts using everyday activities as examples to fulfill the following goals:

- (i) Increase scientific literacy in a general population of students.
- (ii) Increase an appreciation of, and enjoyment for scientific endeavors among a general population of students.
- (iii) Create an environment that illustrates the importance of chemistry as an experimental science through experiments, and by evaluating current issues associated to chemistry.
- (iv) Identify and describe physical phenomena in everyday products, activities and events

- **Expected Outcomes:**

- (i) Allows students to learn about the scientific methods and gain skills in critical thinking, deductive reasoning, problem solving and communication.
- (ii) Correlation with everyday life
- (iii) An understanding of the concepts and theories in chemistry
- (iv) Provides job opportunities
- (v) Provides students with skills required to succeed in the chemical industry or professional life.

- **Course Syllabus:**

- (i) Ancient Chemistry
- (ii) Acids, bases and salts in daily life
- (iii) Major components of our food
- (iv) Basic Knowledge of important Chemical constituent of materials used in everyday life (Names and their effects only)
- (v) Elementary idea of disinfectants, pesticides and cleaners.

- **Evaluation:**

Assessments of candidates will be done through theoretical assignments, projects/seminars. After completion of course all successful candidates will be awarded certificates.

• **Course Teachers:**

- (i) Dr Wasim Raja, Assistant Professor, Department of Chemistry, THLH Mahavidyalay
- (ii) Subrata Mondal, PTT, Department of Chemistry, THLH Mahavidyalay
- (iii) Amit Das, Assistant Professor, Department of Physics, THLH Mahavidyalay.
- (iv) Buddhadeb Ghosh, PTT, Department of Physics, THLH Mahavidyalay.
- (v) Dr Sewli Chatterjee, Assistant Professor, THLH Mahavidyalay.

### Report

The Chemistry Department organized an Add-on/Certificate Course on "Chemistry in Everyday Life" from 19/11/2018- 01/12/2018. This course is specifically designed for undergraduate students. This course aimed to deepen students' understanding of chemistry principles relevant to their daily experiences. The curriculum covered foundational concepts, including chemical reactions, molecular structures, and equilibrium. Participants explored practical applications in areas such as food additives, medicines, cosmetics, and environmental pollutants. Through a combination of lectures, laboratory sessions, and case studies, students gained insights into the chemistry behind common products and phenomena. 6 teachers from the science departments of our college delivered lectures in this program and 12 students have been benefited from this course. The course fostered scientific literacy and interdisciplinary learning, empowering students for lifelong scientific inquiry and informed decision-making.

# Syllabus of the Addon course on “Basics of Geoinformatics”

## Unit-1:

Principles of Remote Sensing • Remote Sensing Systems • Platforms and Sensors • Interaction of EMR with the objects • Resolution and Scale

## Unit-2:

Downloading imageries from existing sources like SPOT, Landsat, UNOSAT, NOAA AVHRR etc • Georeferencing a satellite image Integrating with RS imageries and other spatial non spatial data in GIS

## Unit-3:

Geographic Information Systems • Components and Functions • Capturing data • Displaying • Querying and examining data • Working with spatial data formats • Working with tables and attribute data • Editing data (spatial) • Analysis using extensions (Spatial Analyst, Network analyst etc) • Generating outputs

## Unit-4:

Introduction to Global Positioning System • GPS Segments • How GPS works • Advantages of GPS • Accuracy • Applications in DM, collecting way points, paths GPS data to Map • Representing on Google Map.

## Course objective:

The following goals have guided the selection of this add-on course:

1. **Introduce Geoinformatics:** Understand the field of Geoinformatics and its applications.
2. **Understand Components:** Learn about the various components of Geoinformatics, including Computer Science, Geodesy, Cartography, Photogrammetry, Remote Sensing, Global Positioning System, and Geographical Information System.
3. **Learn about Applications:** Understand the advantages and diverse applications of Geoinformatics.
4. **Study the Evolution:** Recognize the evolution of Geoinformatics and its multidisciplinary nature.
5. **Identify Geoinformatics Products:** Learn about the different types of Geoinformatics products.
6. **Problem Solving:** Prepare to identify, analyse, and solve geospatial problems.
7. **Develop Practical Solutions:** Train to develop practical and executable solutions to challenges in the field of Remote Sensing and GIS.

### Course outcomes:

The course focuses on the fundamentals of Remote Sensing, Geographical Information System, and Global Positioning System. It introduces the concepts, techniques, hardware, and software used in the collection, processing, and analysis of geospatial data. The course aims to acquaint learners with the use of Geoinformatics technology in analysing spatial data, and widen opportunities for learners for higher studies and developing careers in different sectors of employment involving Geoinformatics.

Upon successful completion of this course, students will be able to independently carry out investigation and development work to solve real-life geospatial problems. They will also be able to write and present a substantial technical report/document/international level research article.

### Suggested readings:

1. "An Introduction to Geoinformatics" by G. S. Srivastava. This book is a comprehensive study on Geoinformatics meant for students and professionals which brings together the essential elements of Photogrammetry, Remote Sensing, GPS and GIS.
2. "Principles of Geoinformatics 5th edn (PB)" by R.K. Gupta, Subhash Chander. This book provides a deep understanding of the principles of Geoinformatics.
3. "Fundamentals of Geographic Information Systems" by Michael N Demers. This book covers essential concepts and skills such as digital geographic data and maps, GIS data models, and spatial analysis.
4. "Fundamentals of Geographic Information System" by Rabi N Sahoo and Debashis Chakraborty. It covers a wide range of topics, including the Fundamentals of GIS, Map Language, Maps as Numbers, Data Models and Data Structures, and Input of Map Data.
5. "Fundamentals of Remote Sensing" by George Joseph. This book covers the technology and applications of remote sensing, aiming to present fundamental concepts that focus on the entire process from data collection to end utilization.

### Report on the Add-on Course

In the academic session of 2018-2019, the teachers of the Department of Geography of Turku Hansda Lapsa Hemram Mahavidyalay organized an Add-on Certificate Course on the topic of "Basics of Geoinformatics" from 04/04/2019 to 13/04/2019 (32 Hours) including two session every day. The course was overseen by the Principal and guided by the Coordinator of the Internal Quality Assurance Cell. In addition to the instructors from the geography department, many speakers from the various institutions were invited to discuss the basics concepts of Geoinformatics.

A total of 38 students from the second and fourth semesters participated in the course. In addition to submitting assignments based on the knowledge they had learned from the course, students had to participate in a viva voce. Students received a certificate with their grade listed on it after completing the assignment and viva. Few participants obtained an A+ grade, most students received an A grade. Upon finishing the course, students will be able to independently carry out investigation and development work to solve real-life geospatial problems. They will also be able to write and present a substantial technical report/document/international level research article.
