Subject - Approval for an Add on Certificate Course Proposal on "CHEMISTRY FOR SUSTAINABLE FUTURE"

Respected Sir.

I am writing to seek your approval for an add-on certificate course titled "CHEMISTRY FOR SUSTAINABLE FUTURE" that we propose to introduce at our college. The Add-on Certificate Course in Chemistry for Sustainable Future aims to provide participants with a comprehensive understanding of the role of chemistry in addressing global sustainability challenges. With a focus on practical applications and interdisciplinary approaches, this course equips learners with the knowledge and skills needed to contribute to sustainable solutions in various fields. The proposed course details is as follows.

Course Title: CHEMISTRY FOR SUSTAINABLE FUTURE

Duration: 32 hours (Between 08/12/2021 to 18/12/2021)

Objective:

Introduce students to the fundamentals of sustainable chemistry and its relevance to rural communities, Explore local sustainability issues and identify opportunities for chemical interventions, Foster an interdisciplinary approach by integrating chemistry with other relevant fields such as agriculture, water management, and renewable energy.

Target Audience: Undergraduate students from various disciplines.

Course Content: 1 Introduction to Sustainable Chemistry, 2.Chemistry for Rural Agriculture, 3. Water Chemistry and Management, 4. Renewable Energy and Rural Development.

Lectures by: (1) Dr Washim Raja (Assistant Professor, Department of Chemistry) (2) Buddhadeb Ghosh (SACT, Department of Physics) (3) Amit Chandra Das (Assistant Professor, Department of Physics) (4) Dr Sewli Chatterjee (Assistant Professor, Department of Mathematics) (5) Chandan Mandal (SACT, Department of Mathematics)

Assessment: Participants will receive a certificate upon successful completion of the course.

We kindly request your approval to initiate this course in the upcoming academic session. We believe it will enrich our students' learning experience and contribute to their holistic development.

# Meeting Resolution to Conduct an Add-On Course on "CHEMISTRY FOR SUSTAINABLE FUTURE"

It is resolved by the Principal of THLH Mahavidyalay, on 26.11.2021, that an add-on course on "Chemistry for Sustainable Future" will be conducted within 08/12/2021 to 18/12/2021.

- The course shall cover the following topics:
  - The Add-on Certificate Course in Chemistry for Sustainable Future aims to provide participants with a comprehensive understanding of the role of chemistry in addressing global sustainability challenges.
  - Topics covered include 1.Introduction to Sustainable Chemistry, 2.Chemistry for Rural Agriculture,
     3.Water Chemistry and Management, 4.Renewable Energy and Rural Development
- 2 The course shall be open to all students and external participants who have a foundational understanding of Chemistry.
- The course shall be conducted within the duration of 32 hours.
- 4. The institution shall allocate the necessary resources, including:
  - Chemistry laboratory
  - Qualified instructors
  - Learning materials and access to online resources
- 5. A nominal fee may be charged to cover the costs of materials and certification.
- Upon successful completion, participants shall receive a certificate of completion.
- The effectiveness of the course shall be evaluated through participant feedback and performance assessments, and improvements shall be made accordingly for future iterations.

This resolution is hereby adopted by Dr. Amit Kumar Chakrabarty, PRINCIPAL OF THLHM and shall be effective immediately upon its passage.

#### Course Details

Course Title: Add-on Certificate Course on "Chemistry for Sustainable Future".

Duration: 32 hours

Course Date: 08/12/2021 to 18/12/2021

Objectives:

- 1. Introduce students to the fundamentals of sustainable chemistry and its relevance to rural communities.
- Explore local sustainability issues and identify opportunities for chemical interventions.
- 3. Equip students with practical skills to implement sustainable chemistry solutions in nural settings.
- 4. Foster an interdisciplinary approach by integrating chemistry with other relevant fields such as agriculture, water management, and renewable energy.
- Empower students to become agents of change by proposing and implementing sustainable projects within their communities.
- Cultivate an awareness of ethical, social, and cultural considerations in the application of chemistry for sustainable development in rural India.

Expected Outcomes:

- 1. Understanding of Sustainable Chemistry Principles: Students will gain a comprehensive understanding of the principles of sustainable chemistry, including green chemistry, life cycle assessment, and the 12 principles of green chemistry.
- 2. Awareness of Global Sustainability Challenges: Students will develop awareness of the global sustainability challenges such as climate change, pollution, resource depletion, and biodiversity loss, and understand the role of chemistry in addressing these challenges.
- Application of Sustainable Chemistry Concepts: Students will learn to apply sustainable chemistry concepts and techniques to real-world problems, including the design of environmentally benign chemical processes, the development of sustainable materials, and the reduction of waste and pollution.

#### Course Syllabus:

- Introduction to Sustainable Chemistry
- Basics of green chemistry and its importance in rural contexts
- Overview of sustainability challenges facing rural communities
- Role of chemistry in addressing local environmental and socio-economic issues
- Chemistry for Rural Agriculture
- Sustainable practices in soil management and crop protection
- Use of bio-based fertilizers and pesticides
- Application of nanotechnology in agriculture for enhanced efficiency
- 3. Water Chemistry and Management
- Sustainable approaches to water purification and sanitation
- Treatment of agricultural runoff and contamination
- Harvesting rainwater and groundwater recharge techniques
- Renewable Energy and Rural Development
- Chemistry of biomass conversion for energy generation
- Solar energy technologies and their implementation in rural areas
- Biogas production and utilization for cooking and electricity.

#### Evaluation:

Assessments of candidates will be done through theoretical assignments, projects/ seminars. After completion of course all successful candidates will be awarded certificates.

#### Course Teachers:

- 1. Dr Washim Raja, Assistant Professor, Department of Chemistry, THLH Mahavidyalay
  - 2. Amit Das, Assistant Professor, Department of Physics, THLH Mahavidyalay.

#### Answer all the questions. Each question carries two marks.

- 1. Which of the following is an example of a green chemistry principle aimed at sustainable development?
- a) Maximizing the use of non-renewable resources
- b) Minimizing waste generation and using renewable feed stocks
- c) Increasing the use of toxic chemicals in industrial processes
- d) Disposing of chemical waste in landfills
- 2. Which type of chemical reaction is often utilized in green chemistry for sustainable development?
- a) High-temperature combustion reactions
- Exothermic reactions releasing large amounts of heat
- c) Catalytic reactions to reduce energy consumption and waste
- d) Irreversible reactions with high activation energy barriers
- 3. Which of the following is NOT a characteristic of green solvents used in sustainable chemistry?
- a) Biodegradable
- b) Toxic to the environment
- c) Non-volatile
- d) Renewable and sustainable source
- 4. What is the primary goal of designing sustainable chemical processes?
- a) Maximizing the use of fossil fuels
- b) Minimizing environmental impact while maintaining efficiency
- c) Increasing greenhouse gas emissions
- d) Disregarding the health and safety of workers

- 5. Which of the following is an example of a sustainable chemical product?
- a) Pesticides with long-lasting environmental effects
- b) Biodegradable plastics made from renewable resources
- c) Synthetic materials that persist in the environment for centuries
- d) Chemicals causing ozone depletion
- 6. How does green chemistry contribute to sustainable development?
- a) By increasing the production of hazardous waste
- b) By reducing the use of renewable energy sources
- c) By designing processes that minimize environmental impact
- d) By promoting the use of toxic chemicals in manufacturing
- 7. Which of the following is an example of a sustainable chemical process?
- a) Using excessive energy to produce chemicals
- b) Employing catalysis to increase reaction rates and yield
- c) Discharging untreated wastewater into natural water bodies
- d) Utilizing non-renewable resources without consideration for future generations
- 8. What role does renewable feedstock play in sustainable chemistry?
- a) It increases dependence on finite resources
- b) It reduces reliance on fossil fuels and promotes sustainability
- c) It contributes to greenhouse gas emissions
- d) It generates more chemical waste
- 9. Which of the following best describes the concept of atom economy in green chemistry?
- a) Maximizing the use of toxic chemicals
- b) Minimizing the efficiency of chemical processes
- c) Maximizing the utilization of atoms in a chemical reaction to reduce waste
- d) Ignoring the environmental impact of chemical production
- 10. How does sustainable chemistry contribute to addressing environmental challenges?
- a) By increasing pollution levels
- b) By minimizing resource depletion and waste generation
- c) By promoting the use of non-renewable resources
- d) By ignoring the principles of green chemistry

#### Report

Course Title: Chemistry for Sustainable Future

Date: 08/12/2021 to 18/12/2021

No of Students participated: 10

No of faculty members delivered lectures: 5

The Chemistry Department organized an Add-on/Certificate Course on "Chemistry for Sustainable Future" from 08/12/2021-18/12/2021. "Chemistry for a Sustainable Future" is a forward-thinking initiative aimed at fostering a deeper understanding of chemistry's pivotal role in shaping a sustainable world. The program delves into the fundamental principles of green chemistry, renewable energy technologies, and innovative materials science, equipping participants with the knowledge and skills to tackle pressing environmental challenges. By emphasizing the interplay between chemistry and sustainability, the course cultivates a new generation of scientists, engineers, and advocates poised to drive meaningful change. Through hands-on experiments, case studies, and expert-led discussions, students gain practical insights into harnessing chemistry's power for environmental stewardship. This comprehensive approach not only empowers individuals to develop eco-friendly solutions but also instills a profound sense of responsibility towards preserving our planet for future generations. "Chemistry for a Sustainable Future" stands as a beacon of hope, inspiring collaborative efforts towards a greener, more sustainable tomorrow.

Subject - Approval for an Online Add-On Course Proposal on 'Impact of Bengali people on Santali Language & Literature.'

Respected Sir,

We, the teaching faculties of Santali Department want to conduct an Add-On Course through Online Platform on September this year for the benefit of students. The topic is 'Impact of Bengali people on Santali Language & Literature.' This course is for the Current Hons Students of our department. This Course will be a Six days Add-On Course. The Internal Members of our Department will be engaged for the said Course. At the end of the Course one examination will be held and a Certificate with Grade will be entitled to the Students.

So, on behalf of our Department I request you to approve the said Proposal and do the needful.

Thanking you!

Yours Faithfully

#### MEETING RESOLUTION

Date- 25/08/2021

The meeting starts with under the chairmanship of Guru Charan Murmu, HOD, Santali Department.

- The proceedings of last meeting are read and conformed.
- Department of Santali has decided to conduct an Online Add-On Course on 'Impact
  of Bengali people on Santali Language & Literature' for the students of Santali Hons
  (current year).
- It has also decided to that a certificate will be issued in this favour. The tentative date
  of the aforesaid course will be 21.09.2021 to 27.09.2021.
- Department teacher members will conduct this course.

The meeting ends with thanks to all.

#### Course Dtails:-

Course Title - Impact of Bengali people on Santali Language & Literature

Target Audience - Santali Hons Student (Current Batch)

Course Duration - Six Days (6\*6=36 Hours)

Course Date - 21.09.2021 to 27.09.2021

Course Objectives -

- The roles of Bengali people to develop the Santali written literature.
- The roles of Bengali people to develop the Santali Translation literature.
- Santali Magazine published by the Bengali people.

Course Outcomes - On Completion of the course students will be able to:-

- Understand the impact of Bengali People in History of Santali Literature.
- Impact of Bengali People in History of Santali Translation Literature.
- Know about how many presses are setups for Santali books published.
- They understand the Bengali Literature.

Course Syllabus -

- History of Santali Literature
- Impact of Bengali writers.
- Important Bengali Author.
- Important Books written by the Bengali writers
- Important Santalı magazine Editing by the Bengali Editors
- Translation Literature form Bengali to Santali

Subject - Approval for an Add on/Certificate Course Proposal on "Basics of Computer Programming"

Respected Sir,

I am writing to seek your approval for an add-on certificate course titled "Basics of Computer Programming" that we propose to introduce at our college. As technology continues to evolve, proficiency in programming languages has become essential for students across various disciplines. The details of the program are given below.

Course Title: Basics of Computer Programming

Duration: 30 hours (Between 10/01/2022 to 20/01/2022)

Objective: To make students familiar with fundamental programming concepts such as variables, data

types, and control structures

Target Audience: Undergraduate students from various disciplines.

Course Content: (1) Introduction to Programming Languages (2) Variables and Data Types (3) Control Structures (4) Functions and Procedures (5) Arrays and Lists. (6) Basic Algorithms (7) Application

Development (8) Debugging Techniques (9) Coding Standards and Documentation.

Lectures by: (1) Amit Chandra Das (Assistant Professor, Department of Physics) (2) Buddhadeb Ghosh (SACT, Department of Physics) (3) Dr Washim Raja (Assistant Professor, Department of Chemistry) (4) Dr Sewli Chatterjee (Assistant Professor, Department of Mathematics) (5) Chandan Mandal (SACT, Department of Mathematics)

Assessment: Participants will receive a certificate upon successful completion of the course.

We kindly request your approval to initiate this course in the upcoming academic session. We believe it will enrich our students' learning experience and contribute to their holistic development. A=Qu

## Meeting Resolution to Conduct an Add-On Course on "Basics of Computer Programming"

It is resolved by the Principal of THLH Mahavidyalay, on 07.01.2022, that an add-on course on "Basics of Computer Programming" will be conducted to introduce programming concepts among undergraduate students within 10/01/2022 to 20/01/2022.

- 1 The course shall cover the following topics:
  - Introduction to Programming Languages
  - Variables and Data Types
  - Control Structures
  - Functions and Procedures
  - Arrays and Lists
  - o Basic Algorithms
  - Application Development
  - Debugging Techniques
  - Coding Standards and Documentation.
- The course shall be open to all students and external participants who have a foundational understanding of Physics.
- The course shall be conducted within the duration of 30 hours.
- The institution shall allocate the necessary resources, including:
  - Physics and computer laboratory with the required software
  - Qualified instructors
  - Learning materials and access to online resources
- 5 A nominal fee may be charged to cover the costs of materials and certification.
- 6 Upon successful completion, participants shall receive a certificate of completion.
- The effectiveness of the course shall be evaluated through participant feedback and performance assessments, and improvements shall be made accordingly for future iterations.

This resolution is hereby adopted by Dr. Amit Kumar Chakrabarty, PRINCIPAL OF THLHM and shall be effective immediately upon its passage.

#### Course Details

Course Title: Basics of Computer Programming

Duration: 30 hours

Schedule: 10/01/2022 to 20/01/2022

Objectives:

#### 1. Introduction to Programming Concepts:

- Understand fundamental programming concepts such as variables, data types, and control structures.
- Learn about algorithms and problem-solving techniques.

#### 2. Hands-On Coding Practice:

- Write simple programs in a programming language (e.g., Python, Java, C++).
- Implement basic algorithms (e.g., sorting, searching).

#### 3. Application Development:

- Explore how to create small applications or scripts.
- Understand the software development life cycle.

#### 4. Debugging and Troubleshooting:

Learn techniques for identifying and fixing common programming errors.

#### 5. Best Practices and Coding Standards

- Emphasize clean code practices, documentation, and readability.
- Course outcome:

#### Foundational Programming Knowledge:

- Understand fundamental programming concepts, including variables, data types, and control structures
- Write simple programs in a programming language (e.g., Python, Java, C++).
- Implement basic algorithms (e.g., sorting, searching)

#### 2 Application Development Skills:

- Explore how to create small applications or scripts.
- Understand the software development life cycle.
- Develop problem-solving skills through hands-on coding exercises

#### 3 Debugging and Troubleshooting Techniques:

Identify and fix common programming errors.

Departmenting/ THUMBOILM assauped yarlay Modian, Mallarphitsalleun, Blythom 73121 Learn best practices for writing clean, well-organized code.

#### 4 Preparation for Advanced Courses.

- Act as a stepping stone for further studies in computer science.
- Provide a solid foundation for more complex programming topics.

#### Enhanced Employability:

- Programming skills are highly valued in various industries.
- Graduates with programming knowledge have a competitive edge in the job market.

#### 6 Confidence in E-Communication

- Participants will gain confidence in using digital communication tools.
- They will be able to express ideas related to programming effectively.

#### Benefits for Students:

- Foundational Skills: Participants gain essential programming knowledge.
- 2. Enhanced Employability: Programming skills are highly valued in various industries.
- 3 Preparation for Advanced Courses: Acts as a stepping stone for further studies in computer science.

#### Course Syllabus:

#### 1. Introduction to Programming Languages:

Overview of popular programming languages and their features.

#### 2. Variables and Data Types:

Understanding variables, constants, and data types (integers, floats, strings).

#### 3. Control Structures:

- Conditional statements (if-else, switch).
- o Loops (for, while).

#### 4. Functions and Procedures:

Writing reusable code blocks.

#### 5. Arrays and Lists:

Working with collections of data.

#### 6. Basic Algorithms:

- Sorting (bubble sort, selection sort).
- Searching (linear search, binary search).

#### 7. Application Development:

Building simple programs (e.g., calculator, student record system).

#### 8. Debugging Techniques:

Identifying and fixing logical errors.

#### 9. Coding Standards and Documentation:

- Writing clean, well-organized code.
- Adding comments and documentation.

#### Justification:

The "Basics of Computer Programming" course provides essential skills, empowers students, and aligns with the demands of the digital age. It is an investment in their future success.

## Add-on/certificate course titled "Basics of Computer Programming"

#### · Report:

The Physics Department recently organized an Add-on/Certificate Course on "Basics of Computer Programming" specifically tailored for undergraduate students. This course aimed to deepen students' understanding of programming fundamentals and enhance their coding skills. Participants learned about variables, data types, and control structures. Students wrote simple programs in languages like Python, Java, or C++. They implemented basic algorithms such as sorting and searching. Theory and concepts were covered. Participants gained essential programming knowledge. Coding skills are highly valued in various industries. The course acted as a stepping stone for further studies in computer science. The brief details of the course are given below.

Course Title: Basics of Computer Programming

Duration: 30 hours

Schedule: 10/01/2022 to 20/01/2022

Venue: Online mode

Instructor: Amit Chandra Das (Physics), Dr Washim Raja (Chemistry), Buddhadeb Ghosh (Physics), Dr

Sewli Chatterjee (Mathematics), Chandan Mondal (Mathematics), THLH Mahavidyalay

Number of Enrolled Participants: 10

#### Conclusion:

The "Basics of Computer Programming" course empowered students to write code, understand algorithms, and apply programming principles effectively.

Course Coordinator and Speaker: Kyamalia Bairagya

Organising Members and Speakers: Bidyut Kumar Mondal

Oendri Chattoraj

Mrigen Mondal

Invited Speaker: Dr. Suman Mukherjee, Head of the History Department of THLH Mahavidyalay.

#### Course Objectives

- Introducing the participants to the very interesting history of the origin and development of the English
  novel as a major literary genre in the history of English Literature along with the contextual background.
- To learn about the various precursors to the Novel like the Prose fiction, the Romance, the Picaresque narratives, the newspaper reports, the travel narratives, Proto-novel etc. which had facilitated in the rise of the Novel as a genre in eighteenth-century England.
- Special emphasis will be given on the idea of the rise of the Novel as propounded by Ian Watt in his book entitled Rise of the Novel along with the reading of the contribution of writers belonging to seventeenth and eighteenth century England.

#### Course Outcomes

It is expected that the students and teachers will develop a better understanding of the Novel as a relatively new genre in terms of its origin and gradual dominance in the literary history of England. The students will come to know about the cultural background of English society since the early modern period and also about the multifaceted versatility of the novel as a genre in terms of the possible areas experimentation which can be witnessed in their syllabi and beyond. They will be able to imbibe the culture of self study through the academic enrichment that they will experience through an exposure to a large number of new research materials during the tenure of this Course.

#### REPORT:

An Add on Course on the topic of 'The English Novel: The Genre and its Precursors' from 26th March 2022 to 5th April 2022 was organized by the teachers of the Department of English of Turku Hansda Lapsa Hemram Mahavidvalay, under the direction of the Principal and guidance of the Coordinator of the Internal Quality Assurance Cell in the Academic Session of 2021- 2022. A total of 29 students from Semester 4 and Semester 2 of the English Department had joined the Course and it was a great success as the students actively participated in the program which continued for a total of 8 days and 32 hours duration. It was an intra- College but inter- departmental program arranged to give a better idea of the chosen sub- genre of Literature. Besides the teachers of the English Department, Dr. Suman Mukherjee, the Head of the Department of History of this institution was invited to deliver a speech on a relevant theme suitable for the topic.

The Course was divided into eight days of four hours each, Some days had two sessions by two different speakers scheduled according to the module to avoid the monotony of the Course. The students were introduced about the origin, history and development of this unique genre of the English Novel which can actually accommodate a wide variety of texts interesting enough to be read by all kind of readers. The various precursory sub- genres responsible for the rise of the novel were discussed by the speakers to expand the horizon of their understanding about the genre. Since they are made to read a number of novels in their Undergraduate Course, a thorough knowledge about the pre- existing literary and non- literary pieces of writing promoting the growth of the genre of the novel was an interesting way to deal with the genre itself. The sociocultural history of England was also discussed by the invited speaker with special emphasis on the eighteenth century England. A number of authors like Daniel Defoe, Samuel Richardson, Henry Fielding, Laurence Sterne, which are not included were also discussed for their contribution to the genre.

The students were made to submit assignments based on which they were evaluated and certified as active participants of the Course. This Course charted a different territory for conducting Research works by the interested students as the underlying theoretical issues along with their politics of representation which could be seen to function in many novels were also raised but unresolved in this Course. Students were curious to know more about this genre and it was a highly successful event organized by the English Department.
